Re: Old Mayflower Mine Complex

Dear Mr. Berry:

We have received notification from the Division of Oil, Gas and Mining that a proposal has been submitted concerning the development of the Old Mayflower Mine Complex.

We have not received sufficient information to determine the nature of the proposed operation. Any heap leach operation and portions of other mining operations in Utah require the issuances of a construction permit from the Utah Water Pollution Control Committee.

You may submit a plan and description of the project for our review for issuance of the construction permit.

Please call me if there are any questions.

Sincerely,

Charles G. Dietz, P.E.
Utah Bureau of Water Pollution Control
